## KEY PROJECTS

## INTRODUCTION / HISTORY OF GALCON ENGINEERING NIG LTD

- GALCON Engineering (Nig.) Ltd. is an indigenous construction company incorporated in January 28, 1988 to provide services in the fields of civil and structural engineering, with its corporate head office at GALCON HOUSE, Plot 2, Block 113, Lekki Epe-Expressway, Lekki Scheme 1, Lagos, Nigeria.
- Galcon Engineering Nig. Ltd. has well qualified engineers and technicians who have considerable expertise in both conventional and high tech engineering. Through its key personnel Galcon Engineering provides personal and unbiased services to every individual client and deals with every project, large or small, with a high degree of engineering quality and efficiency.
- The company is capable of handling a wide variety of projects including detailed design, construction and project management. The firm in extreme case works with consulting engineering firms, developers and contractors internationally on the construction of very technically advanced civil engineering structures.
- In the cause of executing our project we offer advice to clients on detailed cost analysis and projected programme schedules. In this respect Galcon Engineering Nig. Ltd. has been able to advise clients on considerations such as refurbishment and upgrading of existing facilities as well as new developments.
- Galcon Engineering Nig. Ltd. has the capability, resources in terms of personnel, equipment and experience to provide high quality engineering and project management services. These services are supported by our research library and in-house computer facilities.
- By combining civil, structural and management skills with our project teams we have been able to successfully complete outstanding projects such as the 7-storey Coscharis Plaza located at Adeola Odeku Victoria Island, Lagos, 18-number housing units at NICON Estate, Lekki, Lagos and 5-storey building for Hardley Suites located at Plot 46, Waziri Ibrahim Street, Victoria Island, Lagos. Other projects already completed, nearing completion or in progress are listed in the brochure.
- The office situated at GALCON HOUSE, Plot 2, Block 113, Lekki Epe-Expressway, Lekki Scheme 1, Lagos, Nigeria is purpose built. The office has more than 500 sqm of space with equipment room, meeting room, library and parking lot with other facilities.
- **OUR STAFF**  
The only thing that is constant in the face of the earth is change and this philosophy Galcon has embraced. Consistent with the changing world, we are continuously developing and improving our techniques and methods of construction by using the state of the art technology and equipment (both heavy and small ones.) Our staff, both technical and non-technical are constantly being trained and re-trained in order to be abreast with the challenges of the ever changing world.
- Galcon Engineering (Nig). Ltd. employs well over 200 (Two hundred) people

## MANAGEMENT TEAM

- All the management staff are quite experienced and dedicated in their service to all our clients. They have wealth of professional experience backed up with continuous educational programmes to the benefit of clients and their projects. The company is organized in such a way that such personal approach to client's project is not lost touch of. We see each client as special and his/her project as important as it is to him. The Management and other staff of the company work as a team towards providing our client with such personal services as are expected of the client's project.
- **THE MANAGING DIRECTOR- ENGR. O. O. OGALA (M.ENG. (STRUCT.), B.ENG. (CIVIL) UNN), MNSE**

Engr. O. O. Ogala is the Managing Director/Chief Executive Officer of the company. He holds a B.Eng. degree second class honours (Upper Division) in Civil Engineering from the University of Nigeria Nsukka. He also holds a Master of Engineering degree in Structural Engineering from the same University in 1987. He is responsible for the day to day running of the company.

He is well experienced in the construction industry. Before joining Galcon Engineering (Nig.) Ltd. as the founding Managing Director, he had worked with Compak Nig. Ltd., Ilorin and one of the best construction companies in the world- Bouygues Nig. Ltd. He is a professional to the core. He has over 35 years of experience in the construction industry. He is successfully married with children.
